Selected Assignment -> [2020/Semester 1/Computer Networks and Applications/**ORACLE** - Alternating Bit](#)

Assignment Repository to be Submitted:

<https://version-control.adelaide.edu.au/svn/a1779153/2020/s1/cna/AlternatingBit-Oracle>

Choose a submission from the "Submission" column to view the test script output and any associated marks. The selected "Submission" item is highlighted in **red**. If available, "Helpful Hints" or "Feedback" can be chosen too. All the items in the "Submission" column are listed with the most recent first. If the assignment deadline is known to the Web Submission system, this will be indicated in the Submissions column too.

```
compilation successful....
running tests....

running first test.....
comparing output....
first test successful.  you've corrected 1 error.

running second test.....
comparing output....
second test successfull.  you appear to have implemented the timers correctly.

running third test.....
comparing output....
third test successful.  you've appear to have implemented duplicate ACK and out of order receipt corre

running fourth test.....
comparing output....
fourth test successful. You appear to handle corruption correctly.
Tests completed successfully, finishing up
%%%%%%%%%%%%%%%%%%%%%%%%%%%%%%%%%%%%%%%%%%%%%%%%%%%%%%%%%%%%%%%%%%%%%%%%

No marking is done in the Oracle. We tried to apply FOUR tests to your protocol implementation
